### Letter of reference

Mr Pietro Mutolo worked for Bombardier as a freelance Senior Sourcing Specialist, from February to the end of June 2013.

Since the beginning of our collaboration I have know him as a very professional person. He always takes an active role in projects, bringing a strong IT Procurement background into the projects. During the engagement, where he was part of a big IS Transformation program, he dealt in particular with one our most critical projects, being a SAP Migration having Senior Management attention. Pietro was a key person in a cross-functional team. His ability to close it with success was invaluable.

I am happy to write this letter of recommendation for Pietro expressing my respect and appreciation for his personal engagement, which brought outstanding contribution to the program and to the work of my group.

He will be an asset for your company having my strong recommendation!
